SUMMARY

Dedicated Frontend Engineer with a strong foundation in web development and a proven track record of providing exceptional user support. Adept at collaborating with cross-functional teams to deliver user-friendly solutions while ensuring end-user's satisfaction. Skilled in technical problem-solving, documentation, and fostering a culture of innovation. Demonstrates unwavering leadership and support capabilities, coupled with effective communication and a commitment to project success. Additionally, brings valuable experience in Health IT, including rapid prototyping, human-centered design, and healthcare innovation, further enhancing the ability to bridge technology and healthcare to improve patient care.

Top Skill Set

- HTML5, CSS, JavaScript, SASS
- React, Redux, Redux-Saga, Redux Toolkit, Zustand
- Next JS, Jest
- TypeScript, Bootstrap, TailwindCSS, Material UI, Ant Design
- Rapid Prototyping
- Human-Centered Design
- Healthcare Innovation
- Technical Issue Documentation
- Collaboration and Innovation
- Technical Savviness
- Innovative and Creative Thinker
- Strong Team Player
- Effective Communication
- Willingness to Learn

Work Experience

Frontend Engineer | Support Team Lead

SmartComply Technology Solutions | Remote

| April 2022 – Present

Key Roles/Achievements:

- Provided outstanding end-user support for the SmartComplyApp, offering timely assistance and resolving complex technical issues while maintaining high user satisfaction.
- Played a pivotal role in delivering at-the-elbow support to ensure users could confidently transition to the SmartComplyApp, fostering a culture of user confidence and trust.
- Conducted tailored training sessions, enabling users to effectively navigate the system and manage their tasks, further enhancing their proficiency and satisfaction with the platform.
- Demonstrated meticulous attention to detail by identifying, documenting, and reporting software issues promptly, facilitating streamlined troubleshooting and issue resolution.
- Led cross-functional teams in the development and delivery of complex technical projects, fostering a culture of collaboration, innovation, and effective problem-solving.
- Successfully deployed a robust multifactor authentication system, enhancing platform trust and reliability, effectively countering security threats, and safeguarding user data.
- Actively listened to end-users' concerns, providing empathetic and effective support during system transitions.

Frontend Engineer | Codegarage Africa | Remote**| July 2021 - August 2022**Key Roles/Achievements:

- Integrated RESTful APIs using Axios, React-Redux, and Redux-Thunk for Fuse ERP, optimizing business processes.
- Crafted scalable and maintainable frontend systems and user interfaces.
- Troubleshoot and debugged complex frontend issues, implementing effective solutions.
- Successfully optimized website performance and responsiveness, resulting in a significant increase in user satisfaction and efficiency in parcel collection and delivery processes.

Health IT Intern | Healthbotics Limited, Ibadan, Oyo State**| February 2021 - June 2021**Key Roles/Achievements:

- Worked at Healthbotics Limited, a prominent Health IT company in Africa, gaining invaluable exposure to the development and implementation of Electronic Health Record (EHR) systems, contributing to healthcare process digitization and improved patient care.
- Acquired hands-on experience in rapid prototyping, mastering the art of swiftly creating EHR prototypes to streamline development while meeting user needs and healthcare standards efficiently.
- Developed a strong understanding of human-centered design principles, prioritizing user needs and experiences in creating EHR systems to enhance usability and user satisfaction.
- Played a pivotal role in taking innovative solutions to the healthcare market, fostering the growth and evolution of the healthcare technology sector by introducing new, efficient, and user-friendly EHR systems, ultimately improving patient care quality.

Frontend Developer Intern | Hotel.ng**| August 2019 - October 2019**Key Roles/Achievements:

- Implemented and maintained the Finance Tracker application for clients to monitor and budget their spending.
- Developed UI screens for a car-parking assistant application using HTML5, CSS3, Bootstrap 4, and JavaScript.
- Collaborated effectively with cross-functional teams to ensure the successful and timely delivery of projects, demonstrating strong teamwork and communication skills.
